Some data were also obtained from the web site of the following organisations:

1. African Development Bank
2. Economic Intelligence Unit
3. International Monetary Fund (IMF)
4. Organisation for Economic Cooperation and Development (OECD)
5. The World Bank

**Note:** Data on most indicators on the Ghanaian economy have been revised by the Ghanaian authorities starting from 1993. However, data for those years preceding 1993 have not been revised making it difficult to compare economic performance prior to 1993 to the performance over the last decade (IMF Country Report on Ghana, 2003).
